My doctor said it was Eczema, and prescribed an ointment, which did no good. I then tried Cutiwhich did no good. I then tried Cuti-cura Soap and Ointment. I washed her head in warm water and Cuticura Soap and gently combed the scales off. They did not come back and her hair grew out fine and thick. It is conceded by the highest authorities that the soda cracker contains the life-giving elements of wheat in the best proportions.

This being so, then Uneeda Biscult must at once take first place as the food of the world—a soda cracker, but such a soda cracker! Made by exact science in sunny bakeries so light, bright and clean, that they are a revelation. The flour is tested; the purity of the water is absolutely assured; the very air is filtered,-why even the temperature and moisture of the atmosphere is accurately regulated. The sponge is kneaded by polished paddles, not by hand. Indeed, Inceda Biscult are only touched once, and then oy a pretty girl, from the time the flour leaves the bag until the beautiful package is placed on your table.

You ask why all this work, all this care in the making of a soda cracker? Because the soda cracker is the best of all food and Uneeda Biscult is the most wonderful of all soda crackers. And with all of it the price is only 5¢ a package.
